9TH INTERNATIONAL CONFERENCE ON TEACHING STATISTICS Flagstaff, Arizona, USA, July 13–18, 2014

The International Conference on Teaching Statistics (ICOTS) is held every four years in different parts of the world. This conference is organized by the IASE. The main purpose of ICOTS is to give statistics educators and professionals around the world the opportunity to exchange information, ideas, and experiences; to present recent innovation and research in the field of statistics education; and to expand their range of collaborators. The ICOTS-9 conference theme is “Sustainability in Statistics Education.” The 2014 Conference will be held in Flagstaff, Arizona, USA, which lies near the southwestern edge of the Colorado Plateau, along the western side of the largest contiguous Ponderosa Pine forest in the continental United States. Details on Invited Sessions, Topics and topic convenors, and calls for invited papers, contributed papers, and contributed posters can be found at the website.

OTHER FORTHCOMING CONFERENCES

2013 JOINT STATISTICAL MEETINGS Celebrating the International Year of Statistics Montréal, Québec, Canada, August 3–8, 2013

The 2013 Joint Statistical Meetings (JSM) will be held August 3–8, 2013, in Montréal, Québec, Canada, at the Palais des congrès de Montréal (<http://congresmtl.com/en/>). JSM is the largest gathering of statisticians held in North America. It is held jointly with the American Statistical Association, the International Biometric Society (ENAR and WNAR), the Institute of Mathematical Statistics, the Statistical Society of Canada, the International Chinese Statistical Association, the International Indian Statistical Association, the International Society for Bayesian Analysis, and the Korean International Statistical Association. Attended by over 6000 people, activities of the meeting include oral presentations, panel sessions, poster presentations, continuing education courses, exhibit hall (with state-of-the-art statistical products and opportunities), career placement service, society and section business meetings, committee meetings, social activities, and networking opportunities.

SRTL-8
EIGHTH INTERNATIONAL RESEARCH FORUM ON
STATISTICAL REASONING, THINKING AND LITERACY
Superior Shores Resort & Conference Center
Two Harbors, Minnesota, USA, August 18–24, 2013

The SRTL International Collaboration began in 1999 to foster current and innovative research studies that examine the nature and development of statistical literacy, reasoning, and thinking, and to explore the challenge of developing these desired learning goals for students. Co-chaired by Joan Garfield and Dani Ben-Zvi, the SRTL Forums offer scientific gatherings every two years and related publications in journals, and books. The theme of the SRTL-8 Research Forum is “Reasoning about Uncertainty in the Context of Making Informal Statistical Inferences.”

59TH WORLD STATISTICS CONGRESS OF THE ISI
Hong Kong Convention and Exhibition Centre (HKCEC)
August 25–30, 2013

The 59th WSC provides a platform for the international statistical community to share and present the latest knowledge and innovation in statistics. The scientific programme encompasses a wide range of topics facilitating professional exchanges and sharing amongst experts and practitioners in various statistical spheres. Featuring the unique theme “Youth,” a series of sessions will be organised on the “Theme Day” of the 59th WSC to address, from various statistical perspectives, topics surrounding the “Youth.” Delegates are welcome to plan tailor-made events from a wide spectrum of activities including scientific programme, social programme, satellite meetings, and short courses.
